

Innovation & IMPACT 2018 Symposium

May 31, 2018

The Innovation and Impact Symposium focuses on emerging technologies in mobility, energy and the built environment. Join the region's leaders from the startup, corporate, public and research communities to examine what it takes to integrate and implement solutions for maximum impact.

Smart Cities:

The emerging technologies of today will be the foundation for the Smart Cities of tomorrow. It is crucial to have an open dialogue to establish working relationships that cultivate the implementation of these "urbantech" technologies. Initiatives such as demonstration projects and public-private partnerships will collectively benefit all parties. The symposium will demonstrate the important role of smart cities in shaping our sustainable future.

Audience

- Mobility, Energy, Building Technology and IoT Startups
- Building and Distributed Energy Service Providers
- Public Sector Representatives
- Automotive OEMs & Tier 1 Suppliers
- Mobility and Energy R&D Centers
